

CV of Chinmayi Santhosh

Final Year BSc Computer Science Student – University of Pretoria

Midrand, South Africa

078 302 0211

santhoshchinmayi@gmail.com

Key skills and competencies

- Strong academic record
- Strong analytical and problem-solving ability
- Programming and Software Design
- Key leadership skills
- Effective communication
- Collaborative team member

Personal details

- **ID number:** 0501271455187
- **Nationality and Gender:** Indian Female, Permanent resident of South Africa
- **Languages:** English, Malayalam
- **Driver's License:** Code B
- **GitHub:** https://github.com/ChinmayiSanthosh

Overview

Final-year BSc Computer Science student at the University of Pretoria with hands-on experience across programming, data structures, systems, databases, and software engineering. Experienced in peer teaching as a university tutor, with a strong foundation in object-oriented design, algorithms, and full-stack development. Seeking internship and graduate opportunities to apply and grow technical skills in a professional software environment.

Education

BSc Computer Science - University of Pretoria

Final year (expected completion 2026). Coursework covers software engineering, data structures and algorithms, computer networks, database systems, operating systems, computer security, and computer graphics.

National Senior Certificate (Matric) - Midland Primary and High School, 2023

Subjects included Mathematics (83%), Accounting (81%), Physical Science (81%), Life Science (77%), English Home Language (74%) and Afrikaans First Additional Language (75%).

Experience

Student Tutor — COS 151 (Introduction to Computer Science)

- Facilitated weekly tutorial sessions for first-year Computer Science students, reinforcing lecture content on algorithms, Boolean logic, computer systems organization, and introductory programming concepts.
- Marked practical assignments and tests, providing structured, constructive feedback to support student understanding.
- Held consultation sessions to help students debug code and work through problem-solving exercises.
- Mentored struggling students individually, helping improve their grasp of foundational computer science concepts and confidence in the module.

Committees / Hobbie and interests

- I enjoy cultural activities such as acrylic painting, mandala art, mehendhi art, drawing and designing.
- My interests in sport include badminton, chess and volleyball.
- Other interests include baking, reading, photography and learning programming languages.

Key Projects

Gesture Based Drone Control (Capstone Project)
It is basically a hand gesture-controlled flight system built for drones which has real time gesture recognition which is translated into flight commands

- Developed the primary frontend (React) and contributed backend functionality (Python) for the gesture-controlled drone flight system
- Did integration of a real-time WebSocket-based telemetry and command pipeline connecting the frontend, backend, and a MediaPipe computer vision gesture-recognition system
- Authored unit, integration, and end-to-end (Playwright) tests across frontend and backend components, and conducted usability testing to inform UX refinements

Achievements and Leadership roles

- Prefect committee member and Eco-committee member.
- Top 3 overall achiever (2019 - 2023)
- Highest Distinction in Physical Science at school (2023)
- School Prefect (2022-2023)
- Dux award (2022)
- Intra school volleyball winner (2022)
- Top achiever in Life orientation (2022)
- Top achiever in Afrikaans (2023 - term 1-2)
